Hi Adam

I have a message to contact you because you wish to "redirect the GSL website to the FH website". I am not sure if this is exactly what is meant but here is some background info before we speak:

- The GSL public website is currently hosted at YourASP in Perth. Current monthly cost is approx \$4.3k ex GST.
- The website has a content management system backend supplied by Vivid Group which can be used by non-technical staff to add content, new pages etc.
- If your actual requirement is to redirect public who access www.great-southern.com.au to the Ferrier Hodgson website or a specific page on the website this could be achieved:
 - immediately by putting a notice on the GSL website home page with a hyperlink to the FH site. This option would still require the GSL website itself to be hosted, or
 - by requesting that YourASP remove the website from their hosting environment, and then a single page be hosted on www.great-southern.com.au by either YourASP or another organisation, redirecting the public to the Ferrier Hodgson website

I can organise either of the solutions depending on what you require.

Adam,

In order to shut down the GSL web hosting, you will need to contact YourASP and have them change the following DNS settings:

- The A record for great-southern.com.au to have the address of 117.53.171.67
- The A/PTR record for www.great-southern.com.au to have the address of 117.53.171

These changes will take up to 48 hours to propagate around the internet. Once this has happened, people attempting to access the GSL web site will then be sent to the IP address of the Ferrier Hodgson site's server. FH's site has been configured so that traffic to it with GSL's address will automatically be redirected to the GSL page.

Once this has been tested to be working, all web hosting with YourASP can be terminated. There is no need for continued hosting of a redirect page.

There is no cost to perform this on the FH side. YourASP may charge a fee for changing the DNS records.

Hi Hostmaster,

Can I please get the following changes made to the great-southern.com.au DNS zone.

- The A record for great-southern.com.au to have the address of 117.53.171.67
- The A/PTR record for www.great-southern.com.au to have the address of 117.53.171.67

If you have any queries please reply all to this email.

Thanks,

Duncan Crothers
